## **Abstract:**

Now a day's, IT industry has become world major media sources which provide enquiries information regarding various social cause. With this increasing availability electronic devices such as computers and mobile phones we can connect both the world who are having resource can provide resource to those who lack in resources. By Times of India today India only has **104 million** slums and they lack only in resources, our motive is to take out capable youth who lack in resources and who can benefit this society.

## **Objective:**

The objective of this web based application is to develop a system that effectively connect the social organization to the society through which we can facilitate the requirements against different social causes as well as there is also the news section in which we will daily update about the different social causes and their effect on the society with this facility we will also make the section of social platform so that we can connect the social reformer to share their views upon social causes.

## **Feasibility Study:**

### Hardware Requirements Specifications:

- i) Computer System with maximum 8GB of RAM

### Software Requirements Specifications:

- i) Windows/Linux OS
- ii) Brackets

### Programming language Specifications:

- i) HTML
- ii) CSS
- iii) JavaScript
- iv) Bootstrap

## **Specification:**

In this web based application we will provide different type of functionality to resource needy, society and youth-

- i) Login and Signup facility to the admin of organization.
- ii) Group admin can update news daily regarding social causes.
- iii) Group members can provide facility to connect to social reformers.
- iv) Admin can check the availability of resources and provide it to the needy

## **GitHub ID:**

<https://github.com/Full-Stack-GLAU/Social-Welfare-Website>

## **Conclusion:**

Through this web based application it is easy to provide resource to those who need it and needy will be notified all about social news and resources and can be granted resource if required as well as we provide social platform to those who have the capability and lack in resource.
